CONDITIONS FOR CZECH APPLICANTS IN JTC2027 "CGT4PM2027"

In this document, we would like to remind all the Czech applicants (co-applicants) which additional documents must be submitted at the national level **by the same deadline** as established in JTC2027 "CGT4PM2027". If these documents are submitted after the deadline, the Czech applicant **will not pass the formal national eligibility check!**

1. Prior to submission of the **pre-proposal** to EP PerMed, Czech researchers need to submit to the Czech Health Research Council the following documents:

a) **Sworn Statement of a Legal Entity / Natural Person** (mandatory);
b) **Sworn Statement for Research Organisation** (if relevant);
c) **Sworn Statement of composition consortium** (only if SMEs or industry are involved in the project proposal from the Czech side);
d) **Application Form:** Czech partners are required to complete a **national Application Form,** providing basic information about the applicant and any co-applicant(s), if applicable, including their respective budgets. It is necessary to list all national institutions involved in the project due to funding requirements.

All these documents are available on the website at the Czech Health Research Council: **PerMed Výzva 2027 – AZV ČR**.

2. Prior to submission of the **full proposal** to EP PerMed, Czech researchers need to submit to the Czech Health Research Council the following documents:

a) **Documents** related to **professional competence**, depending on the nature of the project, must be provided in the form of a **Sworn Statement**, which will be available on the website at the Czech Health Research Council: **PerMed Výzva 2027 – AZV ČR**.
b) **Updated Application Form**: Czech partners are required to complete the **updated national Application Form**, providing basic information about the applicant and any co-applicant(s), if applicable, including their respective budgets. It is necessary to list all national institutions involved in the project due to funding requirements.

IMPORTANT: All projects will be funded under the Programme for the Support of Applied Health Research for the Years 2024–2030 and must therefore **start on 1 January 2028 and be completed no later than 31 December 2030,** as the programme itself ends at the end of that year.

In the Consortium Agreement, it must therefore be stated that due to the national funding conditions applicable to the Czech partner, the project duration for the Czech partner differs from that of the other consortium partners. The Czech partner must start its project activities on 1 January 2028 and complete them no later than 31 December 2030, without any extension possible.

Information on how to submit these documents, further details, and the templates of the required national forms are available on the Czech Health Research Council [1]website: **PerMed Výzva 2027 – AZV ČR**.

We strongly recommend to contact the Czech representative of this call at any time if you are not sure about these conditions.
