

EP PerMed

European Partnership
for **Personalised Medicine**

Preliminary Agenda **XX**

EP PerMed Conference on Personalised Medicine Research

**Co-funded by
the European Union**

This project has received funding from the European Union's Horizon Europe research and innovation programme under grant agreement No 101137129.

1 Introduction

We are pleased to announce and invite you to the first EP PerMed Conference dedicated to Personalised Medicine Research.

During the 1 ½-day event, we will discover various fields of current research in personalised medicine considering various angles like

- **Methodologies** that support specifically personalised medicine research and the translation of research into clinical practice;
- **Application** fields with a specific focus on more personalised prevention;
- **Inclusiveness** focussing on women health and personalised medicine for Children and Adolescents.

The conference also creates a moment to elaborate together on how to **support the translation from research into clinical practice**. What is the research need and how to support the transition?

This event combines insight into cutting edge research from various perspectives like diagnostics, therapy, technology development, big data, clinical trials, ethical and legal aspects and equity as well as creates a moment for networking to tackle together future challenges in personalised medicine and be ready to upcoming funding opportunities.

To bring personalised medicine on the next level, cross border, multidisciplinary and intersectoral collaboration is the key. This event will bring together expertise from many stakeholders that all share a common goal: To moving the personalised medicine field forward. We look forward to outstanding speakers, presentations and intensive discussions with all conference participants to making this meeting a memorable success.

We are looking forward to seeing you soon in Berlin.

2 EP PerMed conference on Personalised Medicine Research – at one glance

Type of event: Conference format

Date: 11-12 February 2025

Format: one day and a half, i.e. one whole day sessions followed by a morning session on two consecutive days; on-site meeting; Plenary and parallel sessions.

Audience/participation: open, places are limited to 300 participants.

Overall Aim: Communicate and promote Personalised Medicine research achievements and networking of the Personalised Medicine communities.

General topic/s: Personalised Medicine research advancements in diverse fields.

Key-words: #EPPerMedBerlinConference2025, #personalisedmedicine, #research, #innovation, #healthcare, #goodpractices, #evidence, #patientinvolvement

2.1 Timing and location

The conference will take place on 11-12 February 2025.

Location: Hotel Palace Berlin, Budapester Str. 45, 10787 Berlin, Germany

<https://www.palace.de/>

2.2 Satellite events – 12-13 February 2025

EP PerMed Training on Research Integrity (1 day):

The training will be an intensive exchange between lecturers and trainees. Therefore, the number of participants is limited to about 25-30. Interested stakeholders must apply and be selected by the organising committee to participate in the training.

More information and registration here - <https://www.eppermed.eu/scientific-integrity>

ERA PerMed JTC2021 Midterm seminar (1 ½ days):

Not open for the public, on invitation only.

3 Draft Agenda Conference

Agenda Day 1: Tuesday 11 February 2025

08:30 – 09:00	Registration	
09:00 – 09:30	Welcome and opening	
09:30 – 09:50	8 years of multinational research funding – ERA PerMed and EP PerMed	
09:50 – 10:20	Keynote Lecture: “Holistic View of Personalised Medicine Research and Current Status”	
10:20 – 11:00	Coffee Break	
11:00 – 12:30	Breakout session 1 Integrating Multi-Omics for Personalised Approaches	Breakout session 2 Personalised Prevention
12:30 – 14:00	Lunch Break	
14:00 – 14:30	Keynote Lecture: “Incorporating recent advances in cutting edge genomic research technology into the real clinical practice”	
14:30 – 16:15	Panel discussion: “Personalised Medicine innovation and their implementation”	
16:15 – 17:00	Coffee Break	
17:00 – 18:30	Breakout session 3 Machine Learning and Artificial Intelligence applied for Personalised Medicine	Breakout session 4 Woman Health in Personalised Medicine
18:30	End of day 1	
19:30	Dinner reception	

Agenda Day 2: Wednesday 12 February 2025

08:30 – 09:00	Registration	
09:00 – 10:30	Breakout session 5 Clinical Trial design for Personalised Medicine	Breakout session 6 Personalised Medicine for Children and Adolescents
10:30 – 11:15	Coffee Break	
Young Investigator Plenary Session		
11:15 – 11:45	Winners Ceremony: EP PerMed Video Competition	
11:45 – 12:15	Keynote Lecture: "Sustainable Transition of Innovation into Patient Care"	
12:15 – 12:30	Closing	
12:30 – 13:45	Lunch Break
